9) Where works are proposed to third-party trees, i.e., 'neighbour's trees', the contractor will require written confirmation from the tree owner ('the neighbours') that the works are agreed and where necessary, that access is permitted. If works only apply to overhanging branches that can be pruned from within the client's property, then permission is not required but the neighbour should be advised where practicable (please also see 7. above as this may also apply.)

10) The contractor has £10 million Public Liability Insurance, and a copy of the certificate is available on request. The contractor will operate in accordance with good industry practice, their Health & Safety Policy and Procedures and undertake Site-Specific Risk Assessments (the outcomes of which may place constraints on the site whilst works are in progress, i.e., the client can't access their shed without prior agreement from ground staff.)

11) The site will be left generally 'clean, tidy and safe' but because of the very nature of the works including the production of wood dust, chainsaw/wood chippings/ twigs/leaves and needles etc. and the traversing of site personnel it will not be as it was prior to the commencement of works.

12) If the works spread over multiple days, the site will be left appropriately and safe and as agreed with the client beforehand.

a. Wildlife and Countryside Act 1981

b. Countryside and Rights of Way Act 2000

c. Conservation of Habitats and Species Regs. 2012 (amendment)

This legislation requires the contractor to assess the impact of the works which may result in works being delayed as a result of nesting birds, roosting bats or similar being present.
